Do you work with a trainer? _____ If so, whom? _____
Do you do or want to do any Schutzhund training? _____ Bite work? _____ Tracking? _____
Are you thinking of the puppy as a breeding prospect? _____ If yes, please provide detail: _____

Regardless of breeding interest, we require that all puppies from this litter have significant health testing, including examination of hips, elbows, eyes (CERF) and heart, with the heart examined by cardiologist (preferably using a Doppler echocardiogram) – typically at 24 mos., with the results registered with the OFA (regardless of outcome). Are you willing to ensure this testing is done timely at your expense? _____
If not, please explain: _____

Do you belong to any dog clubs? _____ If yes, please identify the club(s) and year(s) of membership:

How were you referred to us? _____

What interested you in this litter? _____

Do you understand that any dog could end up presenting with a defect or injury which affects its quality of life or limits its activities? _____ If such a problem should be presented, how do you plan to deal with it? _____

If you have encountered this situation before, please tell us your experience: _____

If a puppy is not available from this litter, did you want to be referred to someone else, wait for a future Mack or related breeding, or something else (please explain): _____

Please provide at least two references, including their emails and phone numbers, whom we may contact: _____

Are you willing to pick up your dog in Long Beach, California? _____

If so, how would you get to Long Beach? _____

Is there anything else you would like us to know? _____

When you've completed this questionnaire, please send a scanned copy to JGSchuster@aol.com. You can also fax to 562 431-4540. Please note that by completing this questionnaire, you agree that copies hereof and information submitted may be shared with the co-breeders, the co-owners of the bitch, and dog clubs noted by you (for verification) and any references listed. All information submitted is subject to verification.
